Company Overview

Vintage Fest Logistics and Supplies is a professional logistics, transport, supplies, and event support company operating in East Africa and its Headquarters in Kisumu Kenya. You work with us when reliability matters, timelines are tight, and failure is not an option.

We support organizations that need structured logistics, dependable transport, consistent supplies, and professional event infrastructure and sound system. Our operations serve corporate clients, private and government institutions, NGOs, event organizers, and private clients.

We operate with

Clear Systems

Trained Teams

Maintained Fleet

We focus on **execution**.
We deliver **predictable results**.

**Today's Fast-Paced World,
Needs Efficient Logistics.**

Our Brand **Story**

Today, Vintage Fest represents order, control, and confidence on the ground. When our fleet arrives and our teams deploy, operations stabilize.

Vintage Fest Logistics and Supplies was built to solve a recurring problem. Too many logistics and event operations fail due to poor planning, weak coordination, and unreliable providers.

We started by handling small scale deliveries and events. Each job demanded discipline, accuracy, and presence. Clients noticed consistency. Trust grew. Responsibilities increased.

We responded by investing in vehicles, quality sound equipment, modern tents, chairs, and skilled personnel. We introduced structured planning, asset tracking, and site supervision. We evolved from a service provider into an operations partner.

Mission

To deliver reliable logistics, transport, supplies, and event support through disciplined systems, capable teams, and dependable infrastructure.

Vision

To become a trusted regional logistics and event support company known for consistency, scale, and operational excellence.

Company Values

1

Reliability

You depend on us to deliver. We respect time, scope, and commitments.

2

Discipline

We work with plans, schedules, and processes. Structure drives performance.

3

Professionalism

We maintain high standards in conduct, appearance, and execution.

4

Accountability

Every task has ownership. We track results and resolve issues fast.

5

Safety

We prioritize people, equipment, and environments in all operations.

6

Continuous Improvement

We invest in better systems, better equipment, and better people.

Company Services

Logistics Services

You need logistics that function without friction. We plan and manage end to end logistics operations.

Our logistics services include

- Cargo handling and coordination
- Last mile delivery
- Event logistics planning and execution
- Equipment movement and site deployment
- Secure handling of sensitive or high value items

We use routing plans, delivery schedules, and confirmation processes. Your goods remain traceable from pickup to delivery.

Transport Services

You need dependable transport backed by capacity. We operate a maintained fleet supported by trained drivers and supervisors.

Our transport services include

- Goods and cargo transportation
- Event transport logistics
- Staff and crew transportation
- Short term and long term vehicle deployment

Vehicles are assigned based on load type, distance, and urgency. Maintenance schedules reduce downtime and risk.

Company Services

Supplies and Procurement

You need consistent access to quality supplies. We source, manage, and deliver supplies efficiently.

Our supplies services include

- General office and operational supplies
- Event supplies and support materials
- Bulk supply sourcing and delivery
- Custom procurement based on client needs

We work with vetted suppliers and structured procurement processes. This ensures quality, availability, and cost control.

Sound System, Tents, and Chairs

You need events that run smoothly and sound clear. We provide professional public address systems and event infrastructure.

Our event equipment services include

- Public address sound systems for small to large events
- Professional audio setup and operation
- Tents for corporate and social events
- Chairs and seating solutions
- Setup, breakdown, and on site technical support

Our technicians handle setup, testing, and live support. We prioritize clarity, safety, and visual order.

Fleet and Equipment **Capacity**

Vintage Fest Ltd operates a dedicated fleet to support logistics, transport, and event operations. Our vehicles handle cargo movement, supply distribution, and event deployment.

Our equipment inventory supports multiple events and operations running in parallel. Asset use is planned, tracked, and supervised to maintain readiness and availability.

Operational **Approach**

You benefit from structured execution.

Our operations are guided by

- Pre assignment planning
- Clear scope and timelines
- Asset and fleet allocation
- On site supervision
- Post assignment reporting

This approach reduces errors and improves predictability.

Health and Safety

You expect safe operations. We enforce safety standards across transport, logistics, and event environments. Drivers, technicians, and crew follow safety procedures designed to protect people and property.

Client Segments

We serve

- Corporate organizations
- NGOs and development partners
- Government and institutions
- Event organizers and promoters
- Private and social clients

Why Choose Vintage Fest

- Proven operational discipline
- Reliable fleet and equipment
- Trained and supervised teams
- Clear communication
- Consistent delivery

Our Commitment

You expect **reliability**. We **commit** to it.
You expect **professionalism**. We **deliver** it.
You expect **results**. We **execute**.

Vintage Fest Logistics and Supplies exists to remove uncertainty from logistics, transport, supplies, and event support. When you engage us, you gain **a partner built for execution**.
